PRINCE THOMAS OF SAVOY MEN'S SCHOLARSHIP

The Prince Thomas of Savoy Society has established a yearly scholarship to be awarded to a member's child, grandchild or great grandchild who needs financial assistance to pursue a course of study beyond the high school level. The same criteria apply to adopted or stepchildren and to children of recently deceased members who were in good standing for at least two years. Both male and female students are encouraged to apply for this scholarship.

Criteria by which a scholarship is awarded

A committee composed of members of the Prince Thomas of Savoy Society will review all applications. Only members of the committee that are not related to any of the applicants will be involved in the review process.

In their review, the committee will consider the financial need, based on estimated cost of the education, funds available and extenuating circumstances such as family income, number of siblings also attending college, loss of a job, illness etc. These factors will be given the highest priority. Other factors that will be given consideration include the applicant's effort to self-finance, academic achievement, record of community service, extracurricular activities and the presentation of the application. If there are more than three qualified applications a preference may be given to the first-time recipient.

The Prince Thomas of Savoy Society guarantees that a minimum of \$6,000 will be available for scholarships in any given year regardless of the amount of funds in the Scholarship account. It is anticipated that three scholarships of \$2,000 each will be awarded each year.

Criteria the applicant must meet in order to apply for a scholarship

The applicant must be the child, grandchild or great grandchild of a regular or associate member of the Prince Thomas of Savoy Society, who has been a member for at least two years.

The applicant must have received a high school diploma or must be scheduled to receive one in the current school year.

The applicant must have been accepted to or be currently enrolled in a college, community college or an institution that offers a technical or other training program for a minimum of two years.
